Too often we have heard of someone needing help but not knowing where to turn. Now, residents can dial 2-1-1 to speak with a Call Specialist who will assess their needs and link callers with local, statewide, regional, and nationwide resources. Through a community initiative of United Way, and a partnership with Family Services Center, this one call gives everyone access to health & human service resources across our communities. 2-1-1 places residents one phone call away from receiving the assistance they need 24 hours a day, seven days a week.
